

COMMUNITY RELAY AT THE

A ROTARY BANGALORE IT CORRIDOR INITIATIVE
KTPO, Whitefield | 16 December 2017

Marathons have now entrenched themselves as the single largest community sports event in the country.

Bengaluru Midnight Marathon

Rotary Bangalore IT Corridor (RBITC) initiated the Bengaluru Midnight Marathon (BMM), a celebration of the innovative and avant-garde spirit of the city in the year 2007. This event has the unique privilege of being Asia's first Midnight Marathon and Bangalore's only Marathon. BMM has several advantages - traffic and pollution is less at midnight, the cool temperature of the night is also conducive for running. Large Display Video screens along the track, decorative lighting, live performances by rock bands & plenty of food add to the fun.

COMMUNITY RELAY THE EVENT

The Community Relay is an innovative event created to involve communities in running. The Relay gives communities, an opportunity to be part of the fun, frolic and excitement of running at midnight. As the name suggests, it is a relay. Teams of five people run a relay. Same community can send more teams since the race is about involvement of communities.

WHY A RELAY

This gives an opportunity to communities to participate as a group. It brings communities together and creates a great event for bonding and building teamwork. Communities cheer their own teams and make the evening a fun event, replete with food, music and running.

WHO CAN PARTICIPATE

The event is open for participation by all Communities in Bangalore.

This year, the community relay consists of two categories:

- Up to 8 years of age
- Above 8 years of age

Younger children must be accompanied by parents. Parents must sign a completed participation form, which has a disclaimer, and should carry a proof-of-age along with them. The completed forms must be submitted to the Community Relay In-charge (contact details given below), before 16th December, 2017. A team can have a mix and match of adults (men and women) and kids.
